Activities

Volunteering Activities

In this section, you are requested to enter information on the volunteering activities you intend to implement. The budget of your project will be partly generated based on the data provided here.

When filling in the activity table, you have two options:

- You already know the main elements (country of origin, country of destination, distance bands) of the activity you plan to carry out: you will then fill-in all fields in the activity table and your grant will be calculated using the applicable unit costs per budget category based on the exact flows of volunteers.

- You have not yet identified the main elements (country of origin, country of destination, distance bands) of the activity you plan to carry out: you will then encode in the activity table only the number of volunteers you plan to involve and the duration of the services. Your grant will be calculated based on the average costs per budget category per volunteer. At final report level, your final grant will be calculated based on the exact flows of volunteers and associated unit costs as defined in the Erasmus+ Programme Guide. The final grant will have to remain in the frame of what was granted at application level.

Please explain the context and objectives of the volunteering activities you are planning.
